3ds Max 2014 . MAX 2013 - MC MAX 2013 - MC MAX 2014 - MC Max 2015 - MC Max 2016 - MC Max 2018 - MC Max 2019 . For each of the versions you can modify the.obj files (by moving, scaling, rotating, etc) and you will get the same result. The only differences are if you use specific modifiers like reflection or transparency. Only the "Copy" modifier will not work for any version and it will not produce a rendered 3D print. All versions will work with the "Fully Solid" and the "3D Print" modifiers. The "Fully Solid" modifier will use all the meshes in the file as one single solid object. The "3D Print" modifier will be configured to produce a 3D print from any meshes in the file. Famous faces Notable contributors References External links
